##### YEASTS:

Rhone 4600

#### WINEMAKER'S NOTES:

The grapes for this Estate Rosé were farmed specifically for this purpose and were picked early to maintain freshness from three different sites in three different AVAs. The grapes were whole cluster pressed, in a Provence style, and fermented and aged in neutral oak barrels. The wine is light in color but big in flavor. The 2021 Rosé of Pinot noir opens with aromas of peach and lilac moving into mango and candied ginger. Lemon zest mixed with cantaloupe showcases both the citrus and tropical elements of the wine. An alluring floral quality along with passion fruit leaps from the glass. The palate invites weight from barrel aging while maintaining a focused, zippy and mineral finish.
